## 2018-2019 Visual and Performing Arts Supplement Submission Information

The University of Virginia invites all students to participate in our arts programs as majors, minors, and contributors. The Admission Office is committed to the creation of a diverse entering class and actively seeks artists, singers, musicians, actors, and dancers to continue to invigorate our community through their dedication to the arts.

Students who exhibit talent in art, drama, dance, or music may submit a supplemental art portfolio **through the Common Application**. Portfolios are reviewed by our arts department faculty members. This portfolio is an optional part of the application process and is intended for those who plan to engage seriously in the University's arts departments as students. Completed portfolio evaluations are shared with the admission committee and are considered as part of the overall application review. These portfolios are not required to enroll in arts-related courses at the University of Virginia and will only be used for the admission process.

### **Architecture:**

The portfolio should demonstrate experience in design and craft. This may include a wide range of work done for courses or other activities: work such as drawing, painting, graphic design, theatric set design, sculpture, computer graphics, furniture design, etc. With each piece, include a brief text description that explains the work's context and purpose (e.g. a ten-minute sketch for a drawing class, a clay sculpture for an art class, or a photographic essay on a particular theme produced independently).

The portfolio must be a PDF file and no more than 10 pages. It is recommended to use only your best pieces for review. A three page PDF of good work is preferable over 10 pages of mediocre work. We recommend formatting the pages in landscape orientation, which is better suited to viewing on a computer monitor. Portfolios will be reviewed only on screen, they will not be printed. All transfer applicants interested in majoring in architecture **must** submit a portfolio.

Provide 1 item. PDFs (up to 10MB each).

### **Dance:**

Submissions must adhere to the following guidelines to guarantee review. Share with us your strengths and versatility as a dancer, improviser, and/or choreographer by submitting 2-4 minutes **total** of dance excerpts in various genres.

Candidates are encouraged to include the following: 1 minute of improvisation; 2-4 minutes of personal choreography (performed by the candidate and/or group work). All submitted

clips **must be labeled** with the choreographer of the movement and together should not exceed nine minutes.

Please note: recital recordings will not be reviewed unless it is solo or duet work. Professional quality video is not required, but submissions must be in focus with the candidate clearly indicated. Recordings of individuals performing excerpts from technique and choreography in a studio are preferred. If you are not submitting clips of improvisation or personal choreography, your submission should not exceed four minutes.

Provide 1-5 clips (please no pictures). Video (up to 250MB each). You may also link to external media from YouTube and Vimeo.

### **Studio Art:**

Students should provide images in .jpeg format. Videos may be submitted as links to streaming sites such as Vimeo.com or YouTube. We will look at a maximum of five minutes of video. If you have longer video pieces, please send only excerpts.

Please ensure that your work appears **right-side-up** after you have uploaded it into Slideroom.

This is an especially important consideration for guitarist, singer, or pianist songwriters, since only one faculty member will review the portfolio. If the student feels that original composition is the primary strength (as opposed to instrumental or vocal facility), the portfolio needs to be tagged as such even if they are the performer. Criteria examined for composition portfolios are irrespective of genre. They include character, aptitude, demonstrated training, and originality.
